About City Directory Circulation

THE true value of advertising circulation is circulation consulted.

TO be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR every thousand directories sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$
$$1,067,500$$

**Consultations or
Circulation Consulted**

CLASSIFIED DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information— as to any firm or individual in business, classified according to their business or profession.

Information— as to Associations, Clubs and Societies, when and where they meet and the name and address of their secretary.

Information— as to Churches, their location and pastor together with the pastor's address.

Information— as to where to obtain a list of prospects for your products or service.

Information— as to where to obtain any service that your community has to give.

Information— as to where to buy advantageously when competitive bids are required for any given service or product.

—Finally —

If your neighbor has it to sell, give him your business.

Like consideration from your neighbor adds prosperity to both.
